

COMPUTER SMILES

" Improving Lives, One Computer at a time"

We are a NJ 501c3 nonprofit organization

ATTENTION TEACHERS: help us find and identify those students whose lives could improve with the gift of a home computer...

Computer Smiles donates free desktop computers to qualified students within your school, school district or organization. The school principal, counselors or teachers can decide who is most in need of a home computer and who would benefit the most. Computer Smiles would like to help those students with scholastic abilities and potential but whose families may be under-privileged or disadvantaged and unable to buy a computer. Visit our website for details.
