

# COMPUTER SMILES

*" Improving Lives, One Computer at a time"*

We are a NJ 501(c)(3) non-profit organization

## **ATTENTION TEACHERS:**

**Please help us find and identify those students whose lives could improve with the gift of a free computer at home...**

**Free Computers:** Computer Smiles will donate free desktop computers to qualified students within your school, school district or organization. The school principal, counselors or teachers can decide who is most in need of a home computer and who would benefit the most. Computer Smiles would like to help those students with scholastic abilities and potential but whose families may be underprivileged or disadvantaged and unable to buy a computer. Visit our website for details.

**Low Cost Internet:** A working internet connection is essential and must be installed in the home prior to receiving the computer. Students who participate in school lunch programs are already pre-qualified to receive assistance from your local cable company for low cost (\$10/month) home internet and Wi-fi service. Go onto [EveryOneOn.org](http://EveryOneOn.org) website to make the arrangements. A suitable computer desk, table or workspace should be ready if possible, and located near the router.

Computer Smiles will deliver and set up the computer in the home.

Thank you

*Marc & Susan*
